Think Green
Take Effective Action
Use recycled, create recyclable
Be Sustainable
Eco Mood On!

Be scientific: calculate the acoustic comfort
Design appealing shape based on performance
Be analytical: catch criticities, find appropriate solution
Achieve acoustic comfort
Design Soundscape
Be emotional, hear the space

Plan flexibility
Always label with certifications
Innovate
Focus on people

Get the touch, feel the material
Fall in love with the finishing

Map the space, connect minds

Never stop, research is the base
